WE'VE PUT OUR FUTURE IN GOOD HANDS - OUR OWN.

A growing nation needs growing infrastructure. C & C Constructions Limited was built on a blueprint to partner India's development efforts. Incorporated in July 1996 by experienced infrastructure developers, we've come a long way since.

Highways, airports, telecom infrastructure and power transmission - many of the country's ground breaking and innovative construction projects have been undertaken and completed by us. Our leading-edge capabilities cover every discipline of construction: civil, mechanical and instrumentation.

A rapid turnover
of exalted proportions
and 29 projects across
India and Afghanistan
is what defines us.

THE CREATORS OF CONSTRUCTION.

We are acknowledged as a company that continues to empower India, enabling the nation to surge ahead in the core sectors. A rapid turnover of exalted proportions and 29 projects across India and Afghanistan is what defines us with an aggregate contract value of over Rs. 12,000 million, for clients like National Highways Authority of India, Airports Authority of India, UNOPS, Republic of Afghanistan and Rites Limited. Today, C & C is one of India's fastest-growing infrastructure enterprises listed on both Bombay and National Stock Exchanges.

AREAS OF OPERATION

- Roads and Highways
- Concessions
- Power & Telecom Transmission Towers
- Commercial Buildings
- Water Supply and Sanitation, Sewerage
- Railway Infrastructure
- Urban Infrastructure

LEVERAGING SYNERGIES FOR GROWTH.

At C & C, we have forged a network of excellence with partners who have several decades of experience and impeccable engineering expertise. The most recent being our partnership with Isolux Corsan, the Spanish engineering giant. The JV will help us take up projects across diverse geographies such as Asia, former Soviet Bloc (excluding Eastern European countries) and Africa.

The partnership presents us with abundant opportunities in terms of diversifying operations across verticals as well as expanding geographical reach.

Our joint venture partners include BSCPL with whom we have been working for over 8 years.

In the coming years, C & C hopes to leverage many more alliances to gain access to technology and domain expertise.

INDIVIDUALLY, WE ARE ONE DROP. TOGETHER, WE ARE AN OCEAN.

Our project sites
are amongst the
most sought-after
training grounds for
young engineers.

C & C recognizes that people are the real source of competitive advantage. It is through people that we deliver total customer satisfaction. Bold, determined, committed and quality conscious at all times - these values are the driving force behind this organization, defining us and guiding us every step of the way. Quality for us is a beacon that inspires us in everything we do and a facet which is carefully nurtured at C & C throughout.

We employ the best minds in the country and they form the backbone of this company. C & C has a strong team of professionally qualified hands-on entrepreneurs and executives. A highly coveted work place, C & C offers the most conducive environment, the safest, most up-to-date technology, locations and valuable exposure to the latest in the field of engineering.

THERE ARE
NO LIMITS
TO GROWTH
AS THERE ARE
NO LIMITS
TO HUMAN
IMAGINATION,
AND WONDER.

From runways in Port Blair and Amritsar, to road projects in Kabul, Kandahar, Guwahati and Kapurthala, we have demonstrated our strength and excellence in execution. Growing at a rapid pace, we have handled diversification successfully – moving seamlessly from roads to railways, transmission, water and building projects.

ROADS AND HIGHWAYS

Highways and roads built by C & C connect people to progress.

C & C has executed major road and highway projects across the globe. And everywhere, we have connected people to progress and prosperity. We have had to tread through some of the world's most inhospitable terrains in the process. Everywhere, we have conquered the odds and laid out the finest roads to lead communities into the future. Focused on expanding business as well as concentrating on our core competencies, we know that road development is essential for sustaining India's and the world's economic growth. We have completed over 15 projects and another 24 projects are currently under execution.

AREAS OF EXPERTISE

- State and National Highways
- City Roads
- High Capacity Transport Corridors
- Bridges and Culverts
- Highway Safety Systems
- Operation and Maintenance

SOME OF OUR KEY COMPLETED PROJECTS

- Resurfacing of existing runway, Taxi truck and Extension & Construction of runway Taxi tract & Apron, **Amritsar** International Airport.
- Building, designing and rehabilitation of Taloqan to Kishem Road, Afghanistan.
- Kandahar to Herat, highway improvement project, Afghanistan.
- Development of state highways in Nawada and Jamui Districts, Bihar.

SOME OF OUR KEY PROJECTS UNDERWAY

- Construction and maintenance of Zirakpur – Parwanoo Section of NH 22 including construction of Pinjore – Kalka – Parwanoo Bypass.
- Construction of package C-1 and C-2 for Yamuna Expressway.
- Widening and strengthening of Una – Barsar – Bhota – Bhamla – Kalkhar – Ner Chowk road project in Himachal Pradesh.

CONCESSIONS

C & C takes great pride in building the nation, kilometre by kilometre, brick by brick.

At C & C, we take great pride in being part of the nation building effort through creating state-of-the-art infrastructure assets.

A few of the ongoing projects include:

HIGHWAYS

- **Kurali – Kiratpur Highway**

Total investment of ₹4080 million with ₹1040 million equity.

- **Mokama – Munger Highway**

Total investment of ₹4440 million with ₹890 million equity.

- **Muzzaffarpur – Sonbarsa Highway**

Total investment of ₹6560 million with ₹1310 million equity.

- **Patna – Bakhtiyarpur Highway**

Total investment of ₹7930 million with ₹1250 million equity.

URBAN INFRASTRUCTURE

- **Mohali ISBT Complex** – Total investment of ₹4320 million.

Mohali Junction is India's first air-conditioned ISBT built on BOT basis. It comprises of an air-conditioned bus terminus coupled with commercial complexes, a luxury hotel with banquet facilities. Once complete, it would raise the profile of the city of Mohali.

- **Computerized Interstate Check Posts** – Total investment of ₹456 million with ₹251 million equity.

TRANSMISSION

- **1,500 kms. of 765 kV and 400 kV Transmission Lines**

and 5 Substations – Total investment of ₹49510 million with ₹12820 million equity.

POWER/TELECOM

C & C believes in the transmission of positive energy.

At C & C, we have executed over ten orders for our clients Bharti Infotel Limited and Tata Tele Services Limited for laying of Optical Fiber Cable. Our diverse expertise and talent enable us to offer to our clients the complete range of Engineering, Procurement and Construction services in this sector.

AREAS OF EXPERTISE

- Optical Fiber Cable (OFC) Backbone Projects
- Tower Foundation and Erection
- DG Foundation and Installation

COMMERCIAL BUILDINGS

At C & C, architecture is a blend of imagination and mathematics as proven by state-of-the-art buildings.

At C & C, we believe that the taller the building, the deeper the foundation to be laid. We offer the right mix of function and sophistication. Spacious and uncluttered, the ambience is designed to enhance user experience.

With skills and resources to develop and execute high value projects, we have ventured into the building sector and completed 3 major projects –

- C & C Corporate Office,
- Warehouse in Hasanpur,
- Transmission Tower Plant in Kala Amb, Himachal Pradesh

One of the most prestigious projects under execution is the building of the new Afghan Parliament and Chancery in Kabul.

WATER SUPPLY AND SANITATION

C & C works hard to raise living standards of India's billions.

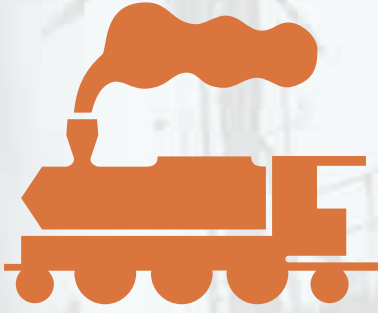

Our transformation from a road-building organization to a large scale infrastructure company began as we forayed into water supply, sanitation and sewerage sector. We have made a modest beginning with an order ₹730 million for “providing, laying, and testing Trunk Sewer and Outfall Sewer” in Jabalpur. The key to meeting our clients’ goals on these challenging projects has been a thorough understanding of the stringent quality standards and specialized systems required for these high value assignments.

We aspire to take these new verticals to greater heights and enhance our capabilities and competence across all of them.

AREAS OF EXPERTISE

- Water Sanitation Facilities
- Providing and Installing Sewerage Systems
- Water Sewerage Treatment Plants
- Irrigation Piping Networks

RAIL INFRASTRUCTURE

C & C is committed to laying an excellent network of rail roads that would take India into the future.

A state-of-the-art and efficient railway network is the backbone of any country's economy. At C & C, we are committed to pulling out all the stops along India's growth path by working on the world-class Dedicated Freight Corridor.

AREAS OF EXPERTISE

- Dedicated Freight Corridor

URBAN INFRASTRUCTURE

C&C is poised to enable 'Sustainable Urban Infrastructure' leading India into a better tomorrow.

Urban infrastructure is important in its own right and is in the nature of a public good. C&C is geared to support its vision for greater and better urban development. The organizational capacity and professional staff promise a significant change in the urban scenario.
