

Clarification to Class Of Operational Creditors

Liquidator of C&C Constructions Ltd had requested for nomination of representative for class of operational creditors to represent the class in Stakeholders' consultation committee meetings through email, however, many such creditors gave the names of representatives of themselves, in place of the representative of the entire class of Operational creditors.

We, from office of liquidator, would like to iterate that request was for representative of **ENTIRE CLASS OF OPERATIONAL CREDITORS** representing hundreds of such creditors whose names are mentioned in the list of stakeholders on this same website.

As part of facilitation from office of liquidator, we have worked on this further, and few creditors have agreed verbally to represent the entire class, accordingly, we shall put their names to vote, and who ever attains maximum vote shall be the representative of entire class of operational creditors.

We shall keep you posted through this website page of the company, kindly keep yourself updated through this and ensure maximum participation in the process by voting in this process.

Warm Regards

Liquidator of C&C Constructions Limited
